**Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)**  
(application filed on or after May 29, 2000)

The patent term adjustment to date is 186 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 186 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

**Notice of Fee Increase on January 1, 2003**

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vladimir Brik on 29 January 2003.

Claim 1 is rewritten as :

--An apparatus for forming mineral fibers of a size between 7 and 100 microns, wherein the apparatus comprises:

- 1  
B
- (a) a vertically oriented furnace having a first side, and a second side opposite the first side;
  - (b) first and second melting chambers, wherein the chambers are at the top of the furnace and wherein the first chamber is positioned at the first side and the second chamber is positioned at the second side;
  - (c) a first adjustable sloped valley member under the first melting chamber, and a second adjustable sloped valley member under the second melting chamber;
  - (d) a vertical stack of horizontal valley members, wherein each horizontal valley member has an opening to permit molten material to cascade down the stack;
  - (e) a glass collector member for receiving the molten material from the stack;
  - (f) two forehearths for receiving the molten material from the collector member;

Art Unit: 1731

(g) a raised throat which retains higher- density glass components in the collector member and permits the passage of lower-density glass components; and

(k) two-chamber ceramic bushings in each of the forehearth, wherein each bushing comprises at least two ceramic plates with orifices;

wherein the valley members have various heights to promote mixing and degassing

and wherein each bushing further comprises water-cooled fins comprising TiNi intermetallic walls, wherein the TiNi is water vapor permeable.--

Claims 2-40 are cancelled.

It was also agreed during the interview that the substitute specification filed 6 December 2002 is not to be entered - except for the indication that the application is a continuation in part of 09/268634.

The first line of the specification is replaced with the following:

--This application is a continuation-in-part of US Patent Application 09/268,634, filed 16 March 1999, now abandoned. This application claims priority to the following US provisional applications: 60/189,256, filed 03/14/2000; 60/130,456, filed 04/22/1999; 60/120,730, filed 2/18/1999; 60/078,104, filed 03/16/1998; 60/077,797, filed 03/12/1998; 60/042,384, filed 04/24/1997; and 60/040,602, filed 03/17/1997--

Art Unit: 1731

The TITLE now reads --Multifunctional Apparatus for Manufacturing Mineral Basalt Fibers--

***Oath/Declaration***

AS discussed in the Interview, the Declaration that was submitted 12-06-2002 is improper. The box at the bottom of the first sheet of the Declaration is for provisional applications (that is, those that begin 60/.....); any application numbers that cannot fit on that first sheet, can be listed in appropriate section of the supplemental sheet (that is, the third sheet). On the second sheet, the wrong application number is put in the box - it should be 09/268,634 which is the parent application: 09/685,204 cannot be a parent of itself. On the third sheet, the Russian, Ukrainian and USSR applications should not be listed, because, according to Applicant, he is not the inventor of those inventions.

A new declaration correcting these deficiencies is required.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Hoffmann whose telephone number is 703-308-0469. The examiner can normally be reached on Monday through Friday, 7:00- 3:30.

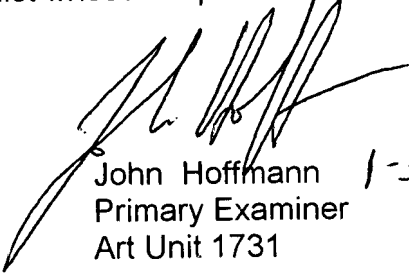

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steve Griffin can be reached on 703-308-1164. The fax phone numbers for
